Education

Pimpri Chinchwad College of Engineering and Research, Pune

2022 - 2026

B.Engg in Computer Engineering

8.45/10 CGPA

Work Experience

Open Source Contributor — Meshery.io, Joplin

Dec 2023 – Present

- Initiated **50+ code contributions** and enhancements to **2** major open-source projects.
- Developed significant user experience and functionality improvements and **20% decrease** in reported issues.

Google DSC — CyberSecurity Facilitator-PCCOER

Sept 2023 – Present

- Facilitated workshops and training sessions on Cybersecurity topics, mentoring over 100 students.
- Coordinated **5+ events** and **5+ competitions** to promote Cybersecurity awareness.

Zakki (Remote) — Back-end Developer

Feb 2023 – Jun 2023

- Designed scalable backend architecture resulting in a **30% increase** in website traffic.
- Enhanced database performance, leading to a **50% reduction** in query time and a **20% improvement** in system stability.
- Collaborated with an international team, ensuring **on-time project delivery** and satisfaction of stakeholders.
- **Technologies:** Java, Spring, MongoDB, Postman, RestFUL API

Projects

• HealthPal

- * Developed a user-friendly web application, HealthPal, revolutionizing mental well-being support by facilitating sentiment analysis journaling and personalized chat-support.
- * Executed and streamlined a sentiment analysis engine using HuggingFace's state-of-the-art natural language processing models, resulting in a 45% increase in accuracy.
- * **Tech Stack:** ReactJS, Bootstrap, Python, Flask

• CypherFlo

- * Pioneered CypherFlo, a robust encryption and decryption application, employing the modified Blowfish algorithm (ongoing research paper), ensuring maximum data security.
- * Crafted and optimized a user-friendly interface using Java Swing, enhancing file encryption and decryption efficiency by 66%.
- * **Tech Stack:** Java Swing, JDBC, SHA-256, BlowFish Algorithm

Technical Skills

Languages: Python, Java, C++, JavaScript, C#

Web Development: Node.js, NextJS, React, TailwindCSS, Bootstrap

Clouds & Databases: Google Cloud Platform (GCP), PostgreSQL, MongoDB

Developer Tools: Git, Docker, Kubernetes, Spring

AI/ML: Numpy, Pandas, Scikit-learn, TensorFlow

CyberSecurity: Threat Analysis, Firewalls, Antivirus Programs, Encryption Technologies

Operating Systems: Windows, Linux

Positions of Responsibility

- Initiated Cybersecurity initiatives as Facilitator at Google Developer Student Club - PCCOER.
- Guided and orchestrated the team as the lead of Google Solution Challenge - 2024 and Smart India Hackathon (SIH) 2023.
- Coordinated and led a Tree Plantation Drive planting over 25 trees under GHMC, Hyderabad.

Awards & Participations

- Achieved runner-up at Spring Hacks by Code4TheFuture.
- Excelled in HacktoberFest-2023 with 8 impactful contributions.
- Attained runner-up at Codecode by IIT-Bombay, outperforming 200+ participants.
- Led team to success in Smart India Hackathon, delivering innovative solutions in social media security.
